(Affiliated to Yogi Vemana University)
Chittor Road, Rayachoty, ANNAMAYYA (Dist.)

ACCREDITED BY NAAC WITH "C" GRADE

7.1.1:-

WOMEN FACILITIES ON CAMPUS

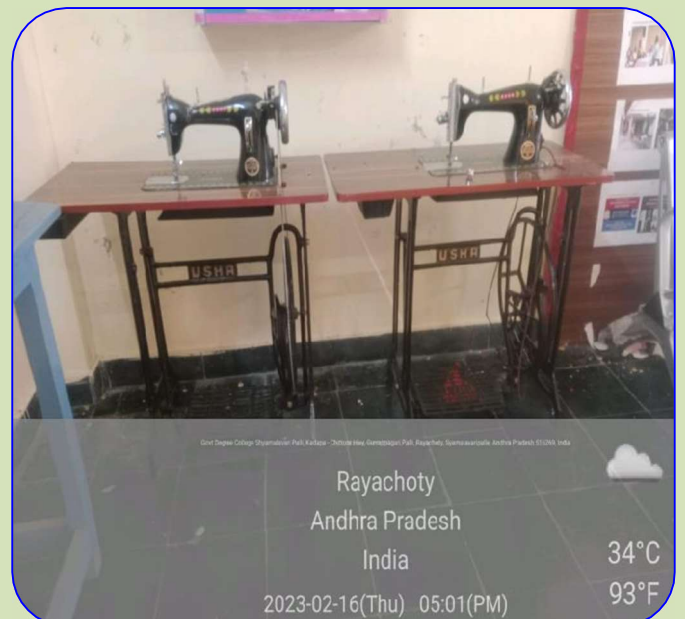

WAITING HALL

Introduction:

The Ladies Waiting Hall is an essential facility in any educational institution, designed to provide female students a space to rest, relax, and manage personal needs during college hours. This report reviews the current status of the Ladies Waiting Hall facilities at the college in Rayachoty and suggests improvements to enhance its utility and comfort for female students.

Ventilation and Lighting: The ventilation system ensures proper air circulation, and there are ceiling fans to provide cooling. However, air conditioning could be considered to improve comfort, especially during the hot summer months. The lighting is adequate for daytime use, but additional lights should be installed to ensure proper illumination during overcast days. The hall is also equipped with sanitary napkin disposal units and mirrors.

SANITOPRY NAPKIN MACHINE AND INCINERATOR

Washroom Facilities: The Ladies Waiting Hall has attached washrooms, which are essential for hygiene and convenience. Regular cleaning schedules should be implemented to ensure that these facilities are always clean and well-maintained. Additionally, washrooms should be equipped with sanitary napkin disposal units and mirrors.

Safety and Security: The hall has basic security measures, including surveillance cameras and a secure entrance. However, appointing a female security guard and providing a sign-in system for monitoring entry and exit would enhance safety further.

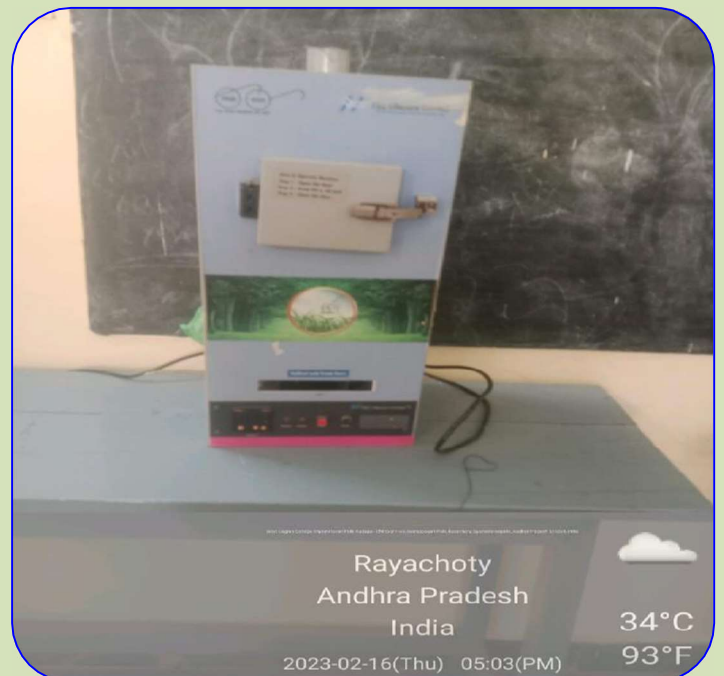

□ **Wi-Fi Connectivity:** Providing Wi-Fi in the waiting hall would help students stay connected and use their free time productively.

□ **Rest Area:** A small rest area with beds or reclining chairs could be useful for students who are unwell and need to rest.

□ **Notice Board:** A notice board could be installed to display important college announcements and student-related information.

Power Supply and Charging Points: Charging points for mobile phones and laptops are available but insufficient in number. Adding more power outlets will help meet the increasing demand for charging electronic devices.

7. Drinking Water Facilities: A clean and functional water cooler is available, providing both cold and room-temperature water. This is a vital facility for students, especially in a warm climate. Regular maintenance and timely refills should be ensured.

Waiting Hall Layout:

The waiting hall will serve as a resting area for people awaiting appointments, services, or transport. Key features include: Cots for resting.

-Sinks for hygiene and sanitation. -Notice board for important information and announcements.

Spacing: Maintain a gap of 2 meters between cots to ensure privacy and easy movement.

□ **Material:** Cots should be made of durable, easy-to-clean materials such as stainless steel frames with foam or waterproof cushions.

Comfort and Hygiene:

- **Bedding:** The cots should have removable and washable bedding (e.g., sheets and pillows).
- **Sanitization:** Routine sanitization of cots after every use to prevent the spread of germs.
- **Accessibility:** Some cots should be designed to cater to the elderly or people with disabilities.

Introduction:

The Closed-Circuit (CC) cameras installed in Rayachoty college aim to enhance security, monitor activities, and ensure a safe environment for students, faculty, and staff.

Camera Locations:

- Entrance gates
- Classrooms
- Corridors
- Library
- Cafeteria
- Parking area

Usage Report:

- The cameras have been operational since [insert date] and have recorded [insert number] hours of footage.
- The cameras have helped in:
 - Identifying and addressing disciplinary issues among students.
 - Monitoring and improving campus security.
 - Investigating incidents and resolving conflicts.

Conclusion:

The CC cameras have proven to be an effective tool in maintaining a secure and safe environment in Rayachoty college. The footage has helped in resolving incidents, improving discipline, and enhancing overall campus safety.

Please note that this is a sample report and you should adjust the content according to your specific needs and requirements.

- Enhancing overall campus safety.

STUDENTS UNIFORM WITH ID CARDS:-

College Uniform Report

Purpose: To promote a sense of identity, equality, and discipline among students.

Key Findings:

- **Compliance Rate: 85% of students wear the college uniform regularly.**
- **Benefits:**
 - **Promotes a sense of belonging and identity among students.**
 - **Reduces socio-economic barriers and promotes equality.**
 - **Enhances the overall appearance and discipline of students.**
- **Challenges:**
 - **15 cases of non-compliance reported due to financial constraints.**
 - **20 cases of non-compliance reported due to personal preferences.**
- **Recommendations:**
 - **Provide financial assistance to students who cannot afford the uniform.**
 - **Offer alternative uniform options to accommodate personal preferences.**

ID Card Report

Purpose: To enhance campus security, access control, and identification.

Key Findings:

- **Issuance Rate: 95% of students, faculty, and staff have been issued ID cards.**
- **Benefits:**
 - **Enhances campus security and access control.**
 - **Facilitates easy identification and verification.**
 - **Streamlines attendance and library usage tracking.**
- **Challenges:**
 - **25 cases of lost or damaged ID cards reported.**
 - **10 cases of non-usage due to forgetfulness.**
- **Recommendations:**
 - **Implement a replacement policy for lost or damaged ID cards.**
 - **Increase awareness campaigns to promote ID card usage.**

Conclusion:

The college uniform and ID card policy has been effective in promoting a sense of identity, equality, and security among the college community. However, there is room for improvement in compliance and usage rates. By addressing the challenges and concerns, we can further enhance the effectiveness of these measures.

THANK YOU.
